

Tournament Format

FOR THE LOVE OF GOD READ THE RULES

I WORKED REALLY HARD ON THEM

Matches will be run in heats of 3 initially. Then 2 heats for the next round. To wrap things up 1 heat to determine the top 3 winners.

The 5 finishers of each match will move on to the next stage of the tournament. Be sure to take a screenshot of your placement after every match to ensure you have proof of your placement.

Tournament entry fee is \$1000 JMD or \$10 USD.

Payable to my Scotiabank Account (Account #100236 Branch: Ochi Rios (90225) or if you rather you can transfer the funds to my PayPal account zalgo_cometh@outlook.com . Once you have made your entry fee payment contact me directly or via my discord channel with proof of payment and your IGN will be recorded and confirmed as a tournament participant. You will also be assigned the role of tournament player for the duration of the tournament so you can have access to the tournament room. This is where you will be able to find out the custom key password for matches as well as reporting your placement scores after matches.

Tournament will be streamed on <https://www.twitch.tv/gimmedawin> and participant names will be posted the day before the tournament at 9 pm. I can be contacted on my Discord channel (<https://discord.gg/dvwmDJn>) for communication/reporting placement or in the stream chat when we are streaming live. You should probably join my discord anyways to keep up with future developments or tournament that take place.

All matches will be played on NA-East and any tournament rulings/decisions made by the Tournament Organizers (T.O.) are final. Custom Key for the server will change with every stage of the tournament so as to minimize unnecessary and unwanted people in the lobby.

Please be aware with this new format and private server of sorts, not everyone will necessarily get their moment to shine on stream as I am unable to control who I end up spectating, but some coverage is better than no coverage until epic gives that option (*fingers crossed*).

In the first stage of the tournament players will be allowed to land anywhere on the map. Once the second stage of the tournament has begun, the stream will be responsible for picking if players land in the top or lower half of the map. In the last stage of the tournament the person who qualified first into the final stage of the tournament gets to pick where everyone lands. (TBA)

All matches will have a 5-minute window of time once the matchmaking queue has been started by the T.O. for everyone to join the matchmaking queue and find out where the designated landing area is. Information for the tournament will be posted in the discord Fortnite-text-channel as well as on the

stream from time to time. Ideally players are advised to be present and aware once the tournament has started. Try to be on both platforms (Discord and the Twitch stream) to stay updated but if you can't be on both try to be on at least one.

NB* please remember to keep a screen shot of your placement after each match as it is a very important aspect of the tournament as a whole.

Cash Prizes stated as shown below. 30 Day Time Period for winners to arrange a meeting and show up to collect prize money accordingly or have money transferred to them. As this is the first attempt at a paid entry tournament Prize Pool will be a percentage split between the players and tournament organizers. This will be a test to see how sustainable a model this might be both financially and interest wise. 60% of the prize pool will go to the players for 1st, 2nd, and 3rd while the rest will be assigned to the tournament organizers.

Additionally, prizes may be randomly given away on stream during the tournament.
