

Fortnite Builders Association V4 Tournament Rules and Guidelines

Tournament will be streamed on <https://www.twitch.tv/gimmedawin> and brackets will be posted the day before the tournament (22/02/19) at 9 pm. Be sure to add the respective people posted in the bracket for an easier time organizing your bracket matches at the start of the tournament and onwards.

I can be contacted on my Discord channel (<https://discord.gg/dvwmDJn>) for communication/reporting scores or the stream chat when we are streaming. You should probably join anyways to keep up with future developments or tournament that take place. Also be sure to add me on Fortnite (GimmeDaWin.ttv) for easy communication and party forming.

Tournament will be a point-based system. Due to not having private servers to host this on will be running 3 man squads with myself as the 4th team member so that games can be streamed and recorded somewhat for posterity. All matches will be played on NA-East and any tournament rulings/decisions made by the Tournament Organizers (T.O.) are final.

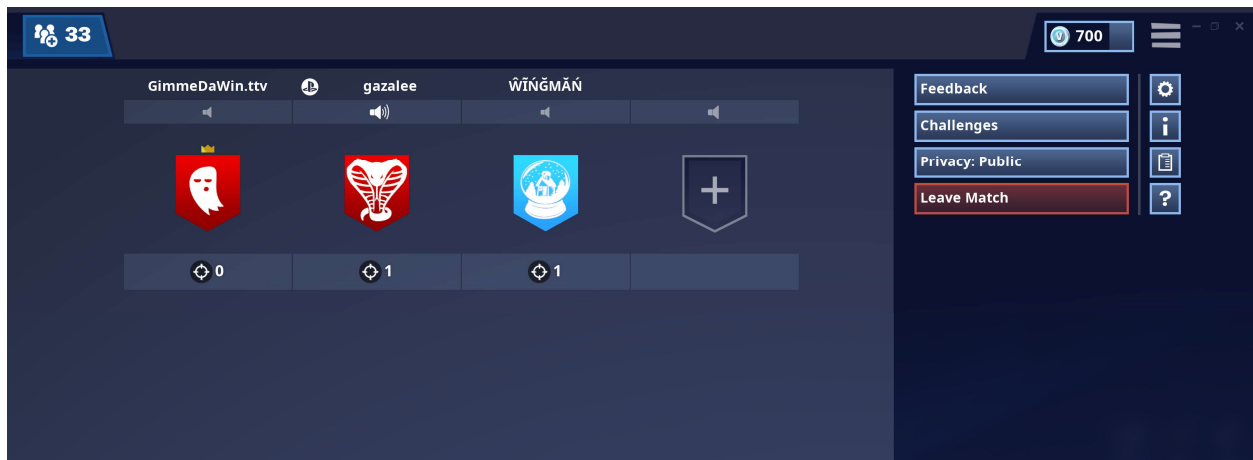

Failure to show up on time for your respective matches after a 15-minute window will result in a disqualification unless due to extenuating circumstances agreed upon by the T.O. and the involved Bracket members.

Scoring for each round is assigned as follows:

1 point per kill.

4 points if alive for Victory Royale.

Games will be conducted in groups of 3 with the 4th slot left open for the T.O. or another possible streamer to join and stream the match. Players will play out 3 matches in public lobbies and report their score with a screen shot to the T.O. so points can be allotted and tracked.

At the end of 3 Rounds the person with the most points moves on to the next stage of the tournament where we continue in a similar fashion with 1 less round until a winner is crowned.

Not all matches will be streamed by [twitch.tv/GimmeDaWin](https://www.twitch.tv/GimmeDaWin) in the interest of time but he will try to go around to as many matches as possible to give every participant some time to be highlighted. Ideally players are advised to be present and aware once the tournament has started. Try to be on both platforms (Discord and the Twitch stream) to stay updated but if you can't be on both try to be on at least one.

Step 0:

Be in discord group and find the necessary people in your bracket grouping to create your squad. Not mandatory but it would make things easier if you haven't already added players to your friends list by the start of the tournament. Bracket will be posted in the discord Fortnite text channel as well as on the eSports Jamaica Website. Person listed at the top of each bracket is the party leader and has the responsibility of inviting all players to start that groups matches.

Step 1:

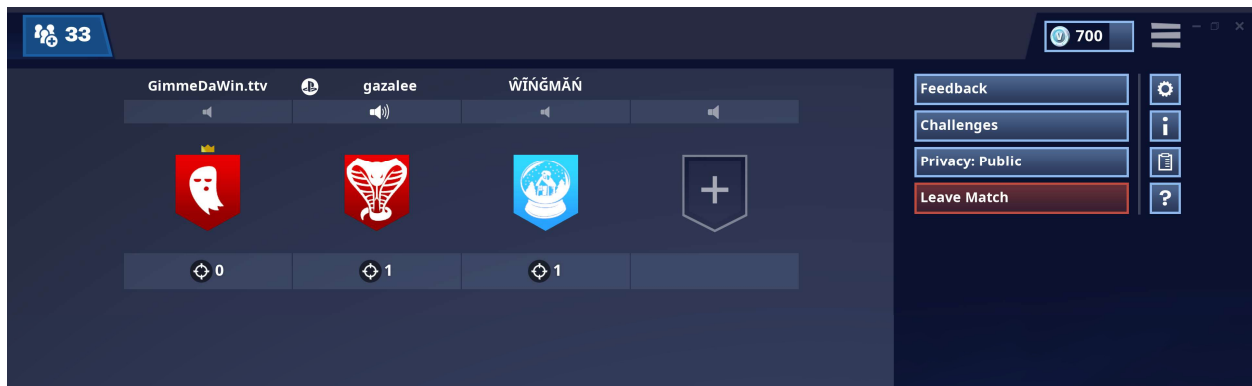

Make lobby with other people in your bracket.

Step 2:

Once all members are present, tell the T.O. that you are going to begin your match and receive clearance.

Step 3:

All participants report the kill score of each person to be fair and consistent across the board. If scores don't align the integrity of the match will be brought into question and verification from all participants will be needed and verified. So as a precaution be sure to screen shot the kill score of each match.

*sabotaging your squad mates is not allowed, however you can kill steal or item steal to your hearts content \(^_^)/
